

JERSEYCANADA

Jersey Canada is the non-profit national association for owners and breeders of registered and recorded Jersey cattle.

The association is responsible for the management of the Jersey herd book.

Our services can support your profit model, assess the breeding value of your Jerseys, improve your stock, build on your investment, and develop the breed as a whole.

Imported Animals		
Imported animals will be registered or recorded using the same fees for animals born and first registered/recorded in Canada. However, rather than considering the animal's date of birth, the date the transfer of ownership was processed into Canadian ownership (at the breed registry office of the exporting country) will be used to determine the fee charged for registering/recording the animals in Canada. The privileged lower rate for registration will be available for three months after the breed association of the exporting country has processed the transfer of ownership. After three months, the higher rates will apply.
